

Engineer (m/w/d) ADAS Systems

(11609)

Welcome to spp direkt – IT & Engineering

We are currently looking for an **Engineer (m/f/d) for ADAS Systems** or a **Development Engineer (m/f/d) for Driver Assistance Systems** for our client in the automotive industry, located in Raunheim.

As specialists in job placement, we offer candidates attractive positions with interesting tasks at reputable companies.

Your Benefits:

- **Permanent employment contract** – Security and stability for your professional future
- **Performance-based remuneration** – Attractive salary according to the GVP collective agreement
- **Above-tariff pay** – Benefit from an above-average salary in your industry
- **Special payments** – Holiday and Christmas bonuses, as well as performance-based premiums
- **30 days of vacation** – Recharge your work-life balance
- **Employee referral program** – Earn up to €1000 for recommending new talent – your network pays off!
- **Individual training and development** – Expand your skills and knowledge
- **Diverse projects** – Exciting tasks with well-known business clients
- **Regular development discussions** – Support for your personal growth – a booster for your career!
- **Personal support** – Individual assistance from our dedicated team

Your Tasks:

- Adapt features of vehicle projects for the European market
- Support Euro NCAP activities related to Active Safety
- Conduct tuning sessions to optimize system performance
- Support the development of the attribute roadmap to meet EU benchmark targets
- Ensure local system validation
- Perform benchmark analyses in the field of ADAS
- Monitor the latest development trends and technologies in ADAS systems (including Euro NCAP protocols)
- Collaborate closely with development teams in our R&D centers in Wuhu and Shanghai (China), suppliers, engineering firms, and universities

Your Profile:

- Degree in Automotive Engineering or a comparable field
- Solid experience in ADAS system development, adaptation, and validation
- In-depth understanding of the impact of ADAS on Euro NCAP Active Safety ratings
- Excellent driving and vehicle evaluation skills
- Willingness to travel and possession of a valid European driving license
- Comfortable working in an international and intercultural environment
- Proactive and self-motivated attitude
- Strong communication skills with an open and structured mindset
- Proficient in MS Office and presentation tools
- Fluent in English
- Mandarin language skills are an advantage

Note: All job titles are inclusive of all genders.
